Due to the distance education format for the program and the great need for histotechs, we wanted to make our program affordable to student that are non-residents of Indiana. Rather than having students pay the out-of-state rate, we offer a Flat Rate Tuition. The "Histotechnology Fee is the same as "tuition."

Our pathology course fee is used to fund: the cost of our external accrediting agencies: National Accrediting Agency for Clinical Laboratory Sciences (NAACLS) and the American Society for Clinical Pathology (ASCP) costs. We are required to be a NAACLS Accredited program for certification exam eligibility. We pay a yearly fee and fund for our reaccreditation inspection. The ASCP also charges us to maintain membership to have access to our program performance reports and approve exam eligibility. These reports are useful in our accreditation self-study.
