# Letter from Jay L. Hess, Dean of the IU School of Medicine

Dear Class of 2021,

I would like to start by saying thank you. You have faced an unprecedented set of circumstances, and you have handled it all with grace and resiliency. I have been so impressed by your ability to overcome and adapt. This will serve you well as you launch your careers as physicians, health professionals and biomedical scientists.

Without a doubt, things have not played out as you envisioned for your final year at Indiana University School of Medicine.

It's a challenging yet exciting time to be in medicine. As you head off to work in health systems and research laboratories across the country, you will undoubtedly find the environment impacted by the COVID-19 pandemic. You are ready.

To our MD graduates, four years ago, you came to Indiana University School of Medicine with diverse backgrounds and diverse interests. During your years in medical school, you have each grown as individuals and professionals. We regret that you didn't get to celebrate Match Day in person and that some of you may not have been able to take all the electives you wanted or continue working clinically as you planned. We're excited that 83 of you will be staying in Indiana to enter residency programs affiliated with IU School of Medicine or IU Health, and our hope is that all of you will return to Indiana at some point in your careers.

Graduate students, this year has been filled with unexpected challenges for you too. Lab shut downs and restrictions have made research more difficult. And yet never before has your work had more meaning. We've seen the promise and power of scientific research, and the benefits it can bring for people everywhere.

Because of the pandemic, we don't know exactly what the coming months will bring. Each of you, however, has important work to do - each of you has unique contributions you can make to medicine.

We hope, during your time at IU School of Medicine, you have found many teachers, mentors and advisers who have inspired and encouraged you. Pay it forward. Your career success will be defined not by how much you know, but by how much you care.

We strive to be collegial and collaborative in the School of Medicine as that is the path to making patient care and health better. We hope that we have done a good job modeling that and that you will build and maintain strong relationships with colleagues and patients, as well as with your families. Express gratitude and encouragement to those around you. Be mindful to treat your patients and colleagues as the unique individuals they are, giving them the courtesy of listening and the compassion they deserve. And remember, you always have more to learn. Never stop learning.

Finally, we hope every one of you considers Indiana University "home" and that many of you will want to return to the Hoosier state to help address the unique health care challenges we face here. I wish you well as you continue your professional journey as healers. And always know that we will be watching all of your careers with great interest and pride.

Sincerely,

Jay L. Hess, MD, PhD, MHSA  
Executive Vice President for University Clinical Affairs  
Dean of the School of Medicine

## PROCESSIONAL

### WELCOME

**Paul M. Wallach, MD**

Executive Associate Dean for Educational Affairs and Institutional Improvement

### REMARKS AND INTRODUCTION OF KEYNOTE SPEAKER

**Jay L. Hess, MD, PhD, MHSA**

Executive Vice President for University Clinical Affairs, Dean of the School of Medicine

### KEYNOTE ADDRESS

**Mona Hanna-Attisha, MD, MPH, FAAP**

### PRESENTATION OF GRADUATES

**Paul M. Wallach, MD**

**Vicki L. Bonds, MS, MEd**

Director for Pipeline and Pre-Doctoral Programs

**Tatiana Foroud, PhD**

Associate Vice President of Research and University Clinical Affairs

**Thomas D. Hurley, PhD**

Associate Dean for Research and Graduate Education

**Bradley L. Allen, MD, PhD**

Senior Associate Dean for Medical Student Education

**Emily C. Walvoord, MD**

Associate Dean for Student Affairs

**Paul Ko, MD**

Associate Dean for Curricular Development and Oversight

**Maureen A. Harrington, PhD**

Associate Dean for Medical Student Education and Foundational Sciences

### PHYSICIAN'S OATH

**Jay L. Hess, MD, PhD, MHSA**

### STUDENT SPEAKERS

**Mohammad Walid Aref, MD, PhD, and Jheel Patel, PhD, Class of 2021**

### CLOSING REMARKS

**Paul M. Wallach, MD**

## SCHOLARLY CONCENTRATIONS PROGRAM

The Scholarly Concentrations Program offers a longitudinal extracurricular experience through medical school that combines coursework and a scholarly project in a topic of personal interest, resulting in a manuscript for publication. The following students have earned a Scholarly Concentrations designation. They are the first to complete the Scholarly Concentrations Program, started just two years ago. Congratulations and thank you to these students for leading the way for more than 200 of their colleagues who are now in the program.

**Stephen Daniel Avila**, Business of Medicine

**Phoebus Sun Cao**, Business of Medicine

**Matthew Geiser**, Business of Medicine

## ADMINISTRATION OF OATH

The administration of the Hippocratic Oath or Physician's Oath at graduation time has become a tradition in the western medical world and recognizes our debt to our ancestors for pointing the way to ethical and moral behavior in the midst of the multitude of scientific activities of the medical profession. The Oath is thought to have originated in the fourth century B.C. and has come down to us in several translations. Today's version, the so-called Geneva version of the World Medical Association, has been altered to bring its words and ideas into consonance with today's priorities. It serves to remind us once again of the high standards of performance and behavior to which each of you aspires and with which each of you is challenged as you receive your degree and enter upon your professional career as a physician.

### PHYSICIAN'S OATH

AS A MEMBER OF THE MEDICAL PROFESSION:

I SOLEMNLY PLEDGE to dedicate my life to the service of humanity;

THE HEALTH AND WELL-BEING OF MY PATIENT will be my first consideration;

I WILL RESPECT the autonomy and dignity of my patient;

I WILL MAINTAIN the utmost respect for human life;

I WILL NOT PERMIT considerations of age, disease or disability, creed, ethnic origin, gender, nationality, political affiliation, race, sexual orientation, social standing or any other factor to intervene between my duty and my patient;

I WILL RESPECT the secrets that are confided in me, even after the patient has died;

I WILL PRACTICE my profession with conscience and dignity and in accordance with good medical practice;

I WILL FOSTER the honour and noble traditions of the medical profession;

I WILL GIVE to my teachers, colleagues, and students the respect and gratitude that is their due;

I WILL SHARE my medical knowledge for the benefit of the patient and the advancement of healthcare;

I WILL ATTEND TO my own health, well-being, and abilities in order to provide care of the highest standard;

I WILL NOT USE my medical knowledge to violate human rights and civil liberties, even under threat;

I MAKE THESE PROMISES solemnly, freely, and upon my honour.
