SCHOOL OF MEDICINE HEALTH PROFESSIONS PROGRAMS

Request for Fresh Start

Applicants whose cumulative grade point average is at least 2.0 on a 4.0 scale may petition the program for Fresh Start (forgiveness) based on compelling nonacademic reasons. This forgiveness will eliminate, for the purpose of calculating program specific admission grade point average (s), all courses and grades earned by the applicant during the requested period. The forgiveness period begins with the applicant's first academic enrollment period (at any college or university) and ends after the academic term designated by the applicant. Course work completed in a semester that has been forgiven for admission purposes cannot be used for the fulfillment of program prerequisites or counted as credit hours toward the degree. The request must be submitted at the time of application and must include the beginning and ending dates of the forgiveness period. Medical Imaging Technology students may not use Fresh Start for professional Radiologic Sciences courses.
