¹IU student and staff data follows federal reporting guides categorizing individuals who selected more than one race or ethnicity into international, Hispanic or Latinx, or two or more races. See UIRR data guide for more information about Logic Applied, the order of race or ethnicity categories, first, follows Logic Applied, and then, alphabetically lists single selected categories.

²IU School of Medicine Faculty data system does not report international status as a race or ethnicity category.

³IU School of Medicine Residency data system does not report ‘two or more races’ as a category.

⁴For FT Faculty and Postdoc Fellows, individuals who selected African American or Black and another race or ethnicity are included in the African American or Black percentage. All data is updated annually in February.
